

At Cloud d.o.o., we are committed to creating functional and stylish office spaces that enhance productivity and employee wellness. We understand the importance of the design and layout of a workspace in determining the success and satisfaction of a business and its employees. To achieve this goal, we follow a set of core values that guide our actions and decisions. These values include a commitment to customer satisfaction, quality and reliability, innovation and creativity, and sustainability. We are dedicated to meeting the needs and exceeding the expectations of our clients, and we strive to provide a high-quality service experience from start to finish. We value open communication and collaboration throughout the design process and believe that these are key to creating successful and satisfying outcomes. We use only the highest quality components and materials in our products to ensure durability and reliability. We are committed to delivering a product that meets or exceeds industry standards and our clients' expectations. We are constantly seeking new ways to improve and evolve our products and services. Our team is encouraged to bring fresh ideas and perspectives to the table and to think creatively when it comes to design solutions. As a responsible and environmentally conscious company, we strive to minimize our environmental impact and use sustainable and eco-friendly materials and processes. We believe that these values are essential to our success and our ability to fulfill our mission. By following these guiding principles, we are confident that we can create exceptional office spaces that meet the needs of our clients and their businesses.

Srećko, our furry friend so dear
His wagging tail, a sign of cheer
Pure love and joy, he never pretends
Our loyal companion, until the very end
He is a gift from above, sent to earth
To fill our hearts with joy and mirth.

OUR **DESKS.**

cloud

NIMBUS.

Our Nimbus office table is characterized by its industrial design and distinct personality. The raw steel construction, dark grey tabletop, and visible welding seams add a rustic touch to the table, while the clear, matte lacquer and tapered legs provide a neat and elegant look. This height-adjustable table is both functional and stylish, promoting focused creativity in a professional setting.

*Nimbus clouds, dark and grey
Heralds of rain, on its way
Pregnant with moisture,
Heavy and fat
Bringing a downpour,
where'er they're at
Nature's reminder, to slow
down and rest
Nimbus clouds, among the best*

CIRRUS.^{WORKS}

The CIRRUS Works height-adjustable table is the perfect choice for anyone looking for an elegant and discreet office table with a unique and sophisticated design. Featuring clean, straight lines and narrow square legs, this table blends into all environments adding a distinct interior design element. The tabletop has a minimal overhang for a striking floating live-edge look, and is available in dark grey with a matte finish in either black or white. All of these features come together to create a beautiful and stylish table that is sure to make a statement in any office.

*Cirrus clouds up high in the sky
So thin and wispy,
you could almost fly
A sign of fair weather, clear and bright
They bring a feeling of pure delight
Dancing and swirling,
a beautiful sight
Cirrus clouds,
a true delight*

CUMULUS^{SKY}.

*Cumulus clouds, a sight to behold
So fluffy and white, they gleam like gold
In the blue sky, they gracefully glide
A stunning sight, from every side
With the earth below, and the cosmos above
Cumulus clouds, a symbol of love.*

CUMULUS.

Cumulus electric height-adjustable desk is the perfect choice for anyone in need of a new, high-quality workspace solution. Its stylish minimalist design and sturdy metal base make it a top seller, and the triple telescoping column offers stability and support. The up and down tilt sensors allow you to customize your comfort level, and the base is available in white, silver, and black to suit any personal style. The cable tray is sleek and minimalist, and the tabletop is made from melamine-faced board that is produced in high eco-standards, ensuring that it is both high-quality and sustainable. It is available in a range of colors and wood finishes to fit any office decor. The Cumulus electric height-adjustable desk is a reliable and fashionable choice for any workspace.

Our L-shaped Cumulus has a table top that is designed with free-standing 3 legs to provide optimal mobility and comfort, thanks to the ample leg room. The rectangular legs, with a larger leg at the bottom for stability, are elegantly designed and based on the latest technology for height adjustment control, ensuring reliable and comfortable use.

CUMULUS.

CUMULUS.^{TWIN}

CUMULUS.^{TWIN}

The Cumulus Twin Desk is designed to provide an ergonomic work environment for two individuals. It features a continuous height adjustment control, allowing the user to easily customize their workstation to their desired height. The desk's robust and flexible design can be adjusted lengthways, making it adaptable to various desktop sizes. Additionally, the desk includes a cable management system, with a central tray option, ensuring that both users have a clutter-free workspace. The desk is equipped with the latest technology in height adjustment control, ensuring reliable and comfortable operation.

STRATUS.

*Stratus clouds, a grey
veil in the sky,
Hiding the sun,
a somber lie.
But do not worry, for
they'll soon depart,
Leaving the sky ablaze
in the work of art.
So marvel at the
stratus clouds above,
A natural wonder, a
fleeting love.*

STRATUS.

The Stratus Desk is designed to provide a comfortable and ergonomic work environment for individuals using straight desktops. It has a flexible and sturdy design that can be easily adjusted to fit various desktop sizes. The desk features continuous height adjustment control, allowing the user to customize their workstation to their desired height. The desk's free-standing legs provide ample legroom and allow for unrestricted movement. The desk's rectangular legs, with the larger leg at the top, add a touch of style to the overall design. The desk is equipped with the latest technology in height adjustment control to ensure smooth and reliable operation.

STRATUS.^{TWIN}

PILEUS.

The Pileus desk is a functional and stylish piece of furniture that is well-suited for a variety of settings, including home offices, workspaces, and conference rooms. The tapered legs provide a wider base of support, which helps to make the desk more stable and less prone to tipping over. This design feature is particularly useful for desks that may be used to support heavy equipment or materials, as it helps to distribute the weight evenly and prevent the desk from becoming unstable.

Overall, the Pileus desk is a practical and stylish choice for those who need a functional and adaptable workspace.

ALTO.

The Alto Desk is an excellent choice for any modern office setting. Its sophisticated design, high-quality craftsmanship, and attention to detail make it a durable and professional addition to any workspace. Its sleek lines and elegant curves bring a touch of sophistication to any office, while its essential and timeless design makes it suitable for a variety of professional environments. If you're looking for a sturdy and stylish addition to your office space, Alto will do the job.

CASTELL.

Our Castell Desk has been designed with a focus on aesthetics, stability, and competitiveness. Its primary purpose is to provide shared spaces with a stylish and streamlined look. The accompanying range of accessories further enhances the versatility and functionality of the various configurations available, making it an excellent choice for any shared space.

OPACUSS.

The OPACUSS meeting table is designed with durability and functionality in mind. Its electric height-adjustment feature allows for the creation of an ergonomic and flexible workspace for groups, while its rectangular legs have a sleek and elegant design. This model is easily assembled with any table top and is available in a range of sizes to suit the needs of your business or activity

ETHER.

The ETHER Conference Desk is a highly functional and visually appealing addition to any professional workspace. It is available in a range of sizes and widths, allowing you to customize the frame to fit your desired tabletop and create a cohesive design. The desk's V-shaped legs add a modern touch to its overall appearance, making it a standout choice for any office or home setting. Assembly is simple and efficient, ensuring that you can quickly and easily set up your new workspace.

TILT.

The Tilt multifunction table is designed for use at individual desks, as well as in shared configurations and meeting spaces. It features wheels for easy movement and can be easily relocated after use. When not in use, the table can be flipped upside down to save space. The braking wheels provide a high level of stability.

OUR **STORAGE.**

We offer modular and organized storage solutions to promote productivity in the workplace. A well-organized environment promotes a sense of well-being and enjoyment among employees, leading to increased efficiency. Our cabinet systems provide structure and elegance, allowing for the effective storage of important documents and records. Our modular products offer flexibility and can be customized to meet the specific needs of your workplace. We are here to assist you in finding the best storage solution for your office.

OUR **SOFT SEATING.**

ACCIS PRO.

Accis Pro adjusts to your body movements, providing support for your spine even when you are moving around. This is known as "active seating," as the chair responds to your posture and follows your movements as you reach or make involuntary movements. This unique feature sets it apart from other chairs that only provide support while you are relaxed.

by profim

XENON NET.

The Xenon chair collection, created by the renowned German ITO Design studio, offers a range of high-quality employee swivel chairs with a classic and reliable design. These chairs are equipped with innovative lumbar support and the ability to be customized to fit the individual user's needs. The collection includes a conference version and the option of a Xenon Net chair with a breathable mesh backrest. These chairs are designed to provide maximum comfort and support for the user, ensuring a productive and enjoyable seating experience.

by **profim**

LIGHTUP.

The LightUp chair from ITO Design studio is a versatile, compact seating solution suitable for both home and office use. Its low backrest and features such as durability, functionality, and cost-effectiveness make it a popular choice among customers. Its simple yet effective design makes it a valuable addition to any space.

by **profim**

ELLIE PRO.

The ITO Design studio has successfully blended the comfort of a home chair with the ergonomics and functionality of an office chair in the creation of the Ellie Pro armchair. This chair is sure to fit seamlessly into any interior design project, bringing a touch of warmth and subtlety as well as a modern touch to the space. Its versatility and ability to adapt to any setting make it the perfect choice for any office or home office.

by profim

TRILLO PRO.

ITO Design studio has developed the TrilloPro chair, a modern and slender seating solution that is perfect for use in a variety of settings, including modern offices, conference rooms, and home offices. Its versatility and adaptability make it ideal for hybrid work and other tasks such as home schooling or college work. The chair is designed to support the user's spine and ensure comfort during prolonged periods of sitting. In addition, it is easy and quick to assemble, with a minimal number of components. The TrilloPro chair is always ready for use and is sure to meet your seating needs.

by **profim**

FAN.

The Fan armchair is a classic piece of furniture that never goes out of style. It's comfortable, elegant, and has a distinctive semi-circular seam that makes it stand out. Designed by Piotr Kuchciński, this armchair is perfect for both home and office spaces. It's our most recognizable model on the market and is sure to become an icon in any interior.

by profim

SORRISO.

The Sorriso armchair, designed by Jarosław Szymański of Studio 1:1, is a comfortable and stylish seating option. Its elegant oval shell and expressive stitching give it a unique look, making it perfect for modern reception areas, hotels, or cafes where comfort is key. The name "Sorriso" means "smile" in Italian, and this armchair is sure to bring a smile to anyone who sits in it.

by **profim**

CHIC LOUNGE.

Christophe Pillet's armchair is a work of art that adds a touch of elegance and refinement to any space. Its graceful and stylish silhouette speaks to the designer's artistic vision, and its comfortable form and practical function make it a versatile and sophisticated addition to any setting. Whether placed in a grand hotel lobby, a luxurious lounge area, a modern office, or a chic boutique store, this armchair will elevate the ambiance and make a statement of timeless beauty and class.

by **profim**

VANCOUVER LITE.

The Vancouver Lite collection features minimalist and compact armchairs and sofas that are perfect for modern office spaces. These seats come in both a low version and a high version with upholstered walls, allowing you to create intimate micro-spaces for meetings with clients or teamwork. The comfortable design of these pieces makes them a practical and stylish choice for any office setting.

by profim

Wall In is a modular furniture system designed by Tomek Rygalik. It features clean, geometric lines and allows for complete freedom in arrangement. Ideal for use in public buildings, reception areas, waiting rooms, or open spaces, it can create small and large seating arrangements for meetings and group conversations, as well as individual work stations. Wall In challenges traditional furniture design and invites us to reimagine the way we think about the spaces we inhabit and the role furniture plays in shaping our experiences. It empowers us to create environments that foster connection, creativity, and productivity

WALL IN.
